ABSTRACT

A narrative summary of program accomplishments, tabular data, and program guidelines comprise the annual report of the Johnson-O'Malley Indian Education Program (JOM), which provides academic programs and educational support monies for eligible Indian students. The introduction describes the students served, the program staff, the Indian parent advisory committee, and special services including workshops for parents, inservice training for home/school and teacher aides, and leadership training for Indian youth. Enrollment and attendance figures, presented in tabular form, show an average daily attendance of 86% for the 16,520 eligible JOM students; figures are given by school district, by age and grade, and by tribe. Dropouts are shown by grade and by reason for leaving school; the same table shows the number of JOM students completing each grade. Six tables of program expenditures include total expenditures by county and school and costs for training workshops, program administration, and special programs. The report includes the text of the contract between JOM and eastern Oklahoma public schools and the Eastern Oklahoma Educational Plan, which outlines procedures to follow in administering JOM funds and provides guidelines for cooperation between the local school districts and the Indian Parent Committees. COVER

The cover illustration represents the emblem in the center of the Oklahoma State flag, which is an Osage warrior's buckskin shield, decorated with pendant eagle feathers. Across the face of the shield runs the red man's calumet, or pipe of peace symbol, and the olive branch. The shield implies defensive or protective warfare. The small crosses on the shield are the Indian's graphic sign for stars which indicate lofty ideals or a purpose for high endeavor. The important symbols, however, are the calumet and the olive branch. These override the shield, the symbol of war, and represent a predominate love of peace by a united people and the union of the Indian Territory and Oklahoma Territory into the one great State of Oklahoma.

FOREWORD

The Johnson-O'Malley Indian Education Program in Eastern Oklahoma is administered by the State Department of Education, Johnson-O'Malley Section, as authorized by the Johnson-O'Malley Act of 1936. The program is operated in accordance with the provisions of a contract between the Bureau of Indian Affairs, Department of the Interior, and the Oklahoma State Department of Education.

The Johnson-O'Malley contract has been implemented by the State Department of Education since 1947, making this the Thirty-second Annual Report of Johnson-O'Malley Indian Education in Eastern Oklahoma. This report has been prepared by the Johnson-O'Malley Indian Section to comply with State Contract No. G00C14203085.

As a department, we extend our appreciation to the Muskogee Area Office for the cooperation and assistance we have received in meeting the educational needs of our Indian children. This partnership is an important link in the success of the program.

The entire staff of the State Department of Education is available to render technical assistance and other services. We desire maximum involvement of tribal leaders, Indian organizations, parent committees, public schools, and others, so educational opportunities for Indian students may be enhanced.

Please call on our staff in the State Department of Education if we may be of assistance. We would be most happy to serve in any possible way.

Sincerely,

Leslie Fisher
State Superintendent

N A R R A T I V E

For the thirty-second time, the Johnson-O'Malley Program Section of the State Department of Education has successfully fulfilled its contractual obligation in administering the Johnson-O'Malley Program in the public schools. Each year since 1947 this report has been published for the purpose of summarizing activities and accomplishments of Indian education in Oklahoma.

A total of 187 schools in 37 counties of Eastern Oklahoma received funds for educational programs. The number of eligible students served increased by 1,032 over FY 1978 making the child count 16,520 for FY 1979.

The primary goal of the Johnson-O'Malley Program is to expand educational opportunities for eligible Indian students, one-fourth or more degree Indian blood. The program is designed to provide academic programs and educational support monies for eligible participants.

There were 1,288 Indian graduates of Johnson-O'Malley high schools. In addition, 1,696 Indian students graduated from the eighth grade. The average daily attendance was 86 percent for school year 1978-79 as shown in Exhibit C. The dropout rate tallied only 3.5 percent of the total Indian enrollment. See Exhibit D.

The total Johnson-O'Malley contract for 1978-79 was $3,203,121.67. The amount of money distributed to the schools was based on three factors: (1) the number of eligible Indian students, (2) the financial need of the school district, and (3) the educational needs of the Indian students. The expenditures of contract funds for Eastern Oklahoma are reflected in Exhibits F through K.

The Johnson-O'Malley Program Section is composed of a director, administrative officer, program development officer, administrative assistant, two secretaries, and ten professional field coordinators. The field coordinators live and work in areas with a high population of Indian students. They provide technical assistance to the schools, act as counselors to Johnson-O'Malley students, are liaison people between the school and the Indian community, and monitor Johnson-O'Malley Programs in the schools.

An Eastern Oklahoma Johnson-O'Malley State Committee is elected by local Indian parents to advise the State Department of Education on policy affecting Indian education. Consistent with P.L. 93-638, Indian Self-Determination and Involvement Act, local Indian parent committees are elected to work cooperatively with school administrators in identifying special needs of Indian children and developing programs to meet these needs. The committee must approve all programs before implementation.

Three types of workshops were conducted in 1979. The Local Parent Committee Workshop was held on the campuses of Northeastern Oklahoma State University in Tahlequah, Oklahoma, and East Central Oklahoma State University in Ada, Oklahoma. In addition, at East Central Oklahoma State University, and Northeastern Oklahoma State University, the Johnson-O'Malley Home/School Aides and Teacher Aides attended in-service training sessions.

Indian Youth Leadership Training Programs were held on the campuses of Northeastern Oklahoma State University, Southeastern Oklahoma State University, and East Central Oklahoma State University. These training

programs involved six days of intensive leadership training at each university. One-hundred and fifteen Johnson-O'Malley Indian students participated.

Since its inception, the Johnson-O'Malley Program has moved forward and progressed to meet the stated objectives. We wish to praise local parent committee members and local school administrators for the roles they play in program development.

Much cooperation is required to obtain positive results. We wish to extend our appreciation to Mr. Thomas Jack Ellison, Area Director of the Muskogee Area Office and his staff for the support we have received in providing quality educational experiences for Indian children in public schools.

II. PROVISIONS

Johnson-O'Malley funds may be requested by the State for Special Programs primarily affecting Indian students and/or Parental Costs (kindergarten through twelfth grade), Administration (State level) and Basic Support. Basic Support funds will be limited to meeting educational problems under extraordinary and unusual circumstances as determined by the Muskogee Area Office and the Johnson-O'Malley Section of the State Department of Education.

III. ELIGIBLE SCHOOLS

To qualify for Johnson-O'Malley funds from the State, the local school district must meet the following requirements:

A. A public school located within the jurisdiction of the Muskogee Area Office, provided the Bureau of Indian Affairs extends full services to the area.

B. Have eligible Indian students enrolled.

C. Use Johnson-O'Malley funds to supplement and not supplant local and state funds.

D. The school district must levy 35 mills to insure maximum local effort.

E. The local school district must be eligible for and receive State Aid.

F. Justify the need for Johnson-O'Malley funds after all sources of revenue (local, state and federal) are considered, including Public Law 874.

G. When a school has a general fund surplus in excess of 20% of the school district's operating budget, a documented analysis of the district's financial needs must be prepared by the local school district and made a part of the original proposal (s) before the program can be funded.

IV. ELIGIBLE STUDENTS

A. Eligible Indian students shall include only those who are verified as being one-fourth or more degree Indian blood.

V. AMOUNT OF JOHNSON-O'MALLEY FUNDS

The amount of Johnson-O'Malley funds a school district receives is based on three factors: (1) Financial need of the school district, (2) number of eligible Indian students enrolled, and (3) the educational need of participants, as determined by the Indian Education Section, State Department of Education.

VI. PROGRAM DEVELOPMENT AND ROLE OF THE SCHOOL ADMINISTRATOR

To best meet specific educational needs of Indian students, it shall be the responsibility of the local school administrator and the local Indian parent committee to jointly develop special programs. They must collect baseline data, make accurate needs assessments, set up sequential priorities of educational deficiencies and submit proposed project(s) and budgetary breakdowns to the Indian Education Section by June 30.

A. The local school administrator shall give public notice at least five working days in advance to all parents and/or guardians of Indian students attending said school that an annual election is to be held on school-owned property for the purpose of filling expired terms of the local Indian parent committee members, consisting of five. The term of office shall be two (2) years. In even calendar years, three (3) members shall be elected. The date is to be the first Tuesday in October for all dependent

districts and the first Thursday following the first Tuesday in October for independent districts, between the hours of 7:30 p.m. and 9:00 p.m. The current Indian parent committee shall be in charge of the election procedures. The new local committee members shall take office following a protest period of five (5) days.

B. The school administrator shall submit to the Indian Education Section of the State Department of Education, on the official proposal form, a brief description of the project(s) and duties to be performed by each Johnson-O'Malley funded employee, project goals and objectives, methods of evaluation, project title, grade level assigned, total number of students enrolled, the total number of Indian students enrolled, project supervisor, school's contribution to the project, total amount requested from the Indian Education Section, and total cost of the project.

C. The proposal(s) shall indicate the involvement and approval of the local Indian parent committee by the individual handwritten signatures of the majority of the local committee.

D. When it is necessary to modify an existing project, it must be approved in advance by the local Indian parent committee and the Indian Education Section.

E. All personnel employed with the assistance of Johnson-O'Malley funds will be governed by the official policies of the school district in which they are employed. In selection of personnel for Special Programs, preference shall be given to qualified Indians.

F. Funds for Special Programs may be requested by local school districts for a variety of services that directly or indirectly improve the educational opportunities of Indian students. Special Programs may include, but are not limited to, the following: Remedial education, guidance and counseling, tutorial programs, arts and crafts, special teacher in specialized area, teacher aides, supplies, and summer programs (which must be submitted with original proposals on or before June 30).
